Today is Governor's Day.

"Governor's day" opened under most auspicious circumstances, and from 7 o'clock this morning until late in the afternoon all trains, street cars and private conveyances reaching the fair grounds were crowded to their utmost capacity.

Like "Sedalia day," the weather was very favorable, and the attendance was fully up to the expectations of everyone.

Governor Folk, Missouri's chief executive, arrived in the city this forenoon, being met at the station by a reception committee composed of ex-Governor Norman J. Colman, S. W. Hudson, Senator Thomas Wornall and a delegation of Sedalians and people from other parts of the state, in automobiles, who formed an escort to the governor to the fair grounds.

On arrival there a reception was tendered him in the Live Stock pavilion, which he dedicated last state fair, and following the reception an address was delivered by him.

Governor Folk was entertained at luncheon by the Sedalia Country club at their club house, and in the afternoon he and members of his party occupied boxes in the grand stand to witness the races.

Program at Woman's Building.

There was a good crowd at the Woman's tent this morning and at

10:30 the Ladies' Musical club gave the following program:

1. Instrumental duet — Misses Dempsey.

2. Vocal solo—Mrs. J. H. Rodes.

3. Vocal solo—Mrs. Chas. Bard.

4. Instrumental solo—Miss Sarah Payne.

5. Vocal Trio—Mesdames Yancey, Hurley and Rodes.

6. Violin solo—Miss Lillie Brandt.

7. Vocal solo—Mrs. E. F. Yancey.

8. Instrumental solo—Miss Dempsey.

Shetland Pony Awards.

The exhibitors were C. A. Hasenwinkle, of Hughesville, 9 head, and L. W. Black, of Jacksonville, Ill., 10 head. The latter took the prizes on these: Stallion 3 years or over, stallion foal; mare, 3 years or over, mare and foal; pony in harness, team in harness; tandem ponies.

Sheep Men Elect Officers.

The Missouri Sheep Breeders' association held a very enthusiastic meeting this forenoon in the lecture room of the dairy building and disposed of a large amount of routine business.

The association, formed last year with 13 members, now has 300, and a large portion of them were in attendance.

During the session the place of meeting was decided on for future years, Sedalia being selected, and Wednesday of each fair week was designated as the time.

Officers were elected as follows: President, S. H. Groves, Tipton; vice president, H. R. Erasfield, Union; secretary and treasurer, M. V. Carroll, Sedalia.

Before adjournment was taken meeting was arranged for this evening at 7:30 o'clock, which will be held at the Ruralist office.

Sheepmen's Day Also.

Besides being "Governor's day," today is "Sheepmen's day," and this afternoon a big sale of imported sheep is being held in the sheep and swine pavilion, one of the largest and most enthusiastic crowds of sheepmen ever assembled in Missouri being in attendance.

The pick of the best flocks of England and Canada, including Cotswolds, Oxford and Shropshires are the offerings and the bidding is very spirited.

M. V. Carroll, editor of the Ruralist, is the sale manager, with Col. R. L. Harriman, of Buncheon, and Col. C. J. Hieronymus, of Sedalia, as auctioneers.

HARD PROBLEM FOR COLLEGE

TO DECIDE.

Miss Anna T. Jeanes, the eccen-
tric Quakeress who died in Philadel-
phia last week, did not have a high

opinion of intercollegiate sports. In

her will, which has just been probat-
ed, she left property valued at \$3,-

000,000 to Swarthmore college, under

the condition that all participation in

intercollegiate sports be abandoned

by the institution. The provision,

while not exactly characteristic of

the rich Philadelphia woman, can

not be said to have been unexpected;

for in her last years she had taken

an active interest in the project of

eliminating sports from the colleges

in which she was especially inter-
ested.

Miss Jeanes was particularly bitter

against football, and it is said that

it was her antipathy to this game

that prompted her to leave a large

part of her fortune to Swarthmore

under condition that intercollegiate

sports be abandoned. It is unlikely,

however, that the trustees of the

college will accept the eccentric be-
quest. They will hold an early meet-

ing to decide upon the proper course

to pursue in the matter. The trustees

admit that the college can use the

money to advantage at this time;

but as the whole sentiment of the

undergraduate and the alumni is

against acceding to the terms of the

bequest it is likely that the money

will be rejected.

Miss Jeanes was not so eccentric

in giving away money in her life

time as she was in her will. Last

spring she gave \$1,000,000 to Booker

T. Washington for the education of

negroes in the south, and there was

no string tied to the bequest, and

her many gifts to hospitals and other

charitable institutions were not ham-

pered with embarrassing conditions.

THE REPUBLICAN VOTERS

REBELLED.

It looks as if Teddy were losing

ground in his own state. At the re-
cent primaries in Brooklyn, Mr. Ro-

berts, President Roosevelt's postmas-
ter of Brooklyn, was defeated and

Robert A. Sharkey, whom President

Roosevelt refused to reappoint as na-
val officer of the port of New York,

won in his district. There was a

good deal of clatter on the part of

Woodruff and Roberts and Sharkey

as to how the result was brought

about. Chairman Woodruff issued a

statement declaring that he had not

interfered in the Sharkey district.

The Sharkey people declared that he

had. This is a pointer showing what

may be expected of the Johnson-Bur-

ton fight in Cleveland, O. The people

almost always rebel against federal

dictation from officers great or small.

President Roosevelt, in his speech

at the tomb of McKinley, dwelt upon

the hatred and envy of the rich. With

due respect to the president of the

United States, there is but little such

feeling in the hearts of American

citizens. There is, however, a strong

feeling against the predatory rich

that have plundered right and left,

and a universal demand for their

punishment where they have dis-

obeyed the law, and this feeling has

been heightened by the immunity

granted by the president and his ad-

visers in particular instances.

A Philadelphia woman 104 years

old complains that society isn't as

lively as it used to be. Giddy thing!

American coal is to be used for the

battleships going to the Pacific, if
the cost does not exceed 50 per cent
more than the tenders for foreign
coal. That would seem to be giving
the coal trust more than its share of
protection. But President Roosevelt
has so ordered.

The fact that John D. Rockefeller
made \$125,000,000 in eight years
without turning a hand or drawing an
extra breath simply goes to show
what any bright young man can do
if he will only hire the right people
to work for him.

Notwithstanding the popularity of
butter milk, it would appear to a man
up a tree that the handsome young
senator from Indiana is the only pro-
spective candidate who can consist-
ently make the race for the White
House on a beverage platform.

Perhaps Coach Stagg, of Chicago
University, believes that his foot-
ballers, after a vegetarian diet, will
be as good as wheat, feel their oats
and cabbage all the glory from their
opponents.

"Kid" Wedge, preacher and former
prize fighter, says that the public
never gives the pugilist credit for
much intellectual force. The dear old
public can not always be in the
wrong.

The milk dealers who are convict-
ed of watering their milk have evi-
dently mistaken their calling. They
should have been Wall street frenzied
financiers.

The Louisville couple married un-
der the law the other day will find no
picnic keeping their heads above it
after they settle down to housekeep-

Louisville wants the next demo-
cratic national convention. It is
greedy, it already has both Colonel
Watterson and the dark horse.

It won't always work that way, but
Detective Robert A. Pinkerton ac-
cumulated \$3,000,000 minding other
people's business.

All does not seem to be as well in
the canal zone as the administration
reports would have us believe.

The Demon of Unrest.

We are having the gospel of rest
preached to us on every hand, we are
told that we are approaching destruc-
tion at our present rate, and yet we
constantly accelerate the pace. It is
useless to warn, useless to preach,
useless to struggle against the ten-
dency of the age. We are possessed
for the time being by the demon of
unrest. It has us in its power.—Lady
Pictorial.

Plain Language from H. James.

It is observable, I think, the world
over, writes Henry James in Har-
per's Bazar, that the poor are kinder
to the poor, in proportion, than the
rich themselves are, or even than the
rich are to the rich.

BABY
JIM

THE FAVORITE

Thousands Stand
Daily and Wonder
at His Size

THE ONLY REAL SHOW ON
THE GROUNDS

Nothing But the Real Stuff

Baby Jim, the human wonder in
weight, is the talk of the town, as
well as every visitor at the fair.
Thousands stand daily to look at the
biggest human being on the globe.
Never have the people had a chance
to see such a novelty before. "Baby
Jim" weighs 752 pounds, stripped,
and measures nine feet (three yards)
around the waist. He is jolly and is
always making fun for the people
who stand wondering at his size.

The show is a wonder, and it takes
no urging to get the people to see
him, as everybody says: "Now before
I go home I must see Baby Jim." Ev-
erything about this show is of the
finest, and even the most aristocrat
ic enjoy it and say the money was
well spent.

"Baby Jim" is only 20 years old,
and, doctors say he is as healthy as
the best athletes. Remember that he
will leave soon for another part of
the country. Go tomorrow and see
"Baby Jim," the human wonder—752
pounds, nine feet around the waist
and only 20 years old. He is the best
on the fair grounds.

ARE AFTER LITTLE PRINCESS

Saxon Government Wants Youngest
Child of King's Late Wife.

Dresden, Saxony, Oct. 9.—The Sax-
on government has instituted pro-
ceedings before the Italian courts de-
manding that the ex-crown princess
of Saxony and her new husband, Sig-
nor Toselli, be ordered to deliver up
the little princess, youngest daughter
of the former crown princess, to rep-
resentatives of the King of Saxony.

TWO SIDES OF THE STORY.

Told by Parkave to Ashstreet and by
Mrs. Parkave to Mrs. Ashstreet.

When Mr Parkave reads this he
will appreciate the fact that there are
sometimes two sides to a story. As
he was coming downtown on the car
his friend, Mr Ashstreet, remarked:
"Wasn't it a scorcher yesterday?"
"That's the truth, and I know it all
right," replied Mr Parkave. "Fell
asleep on the lounge after dinner,
and—don't laugh—dreamed of a cool-
ing thunderstorm, with rain and hail
dashing against the house. Woke
up and found my collar wilted, the
perspiration streaming down my face
and my underclothes as moist as if
I had been out on the golf links with
the mercury at 110 in the sun. Fact!
Had to take a shower bath and change
my clothing."

The other side of the story was
told by Mrs Parkave two hours later
as she was on her way to do some
shopping. On the car she met Mrs
Ashstreet, and, of course, the hot
weather was referred to.

"Yes, and I played such a mean
trick on my man that I am almost
ashamed to tell it," said Mrs Parkave.
"What was it, dear? You know I
can keep a secret," asked Mrs. Ash-
street, unable to conceal her curios-
ity.

"Well, you know, as I have often
told you, Jack snored terribly. Yes-
terday after dinner he went to sleep
on the lounge and was soon snoring
loud enough to alarm the neighbor-
hood. The noise grated on my nerves,
and in self-defense, as I said to my-
self, I went to the music room and
banged away on the piano till I per-
spired. And what do you think I
played?"

"You remember that descriptive
storm piece I used to play when I
wished to show off at boarding school?
Well, I literally made the piano crash
with thunder, and I had hailstones
and big raindrops rattling and pat-
tering noisily against the windows
and shingles. Perhaps I improvised
a little and got in more thunder than
the composer's score called for, but I
was determined to drown Jack's
snoring, and to make the storm more
realistic, I switched the lights on and
off a few times. Finally, I heard Jack
get up from the lounge and mumble
something about the heat."

"Has it been raining?" he asked
as I came into the room.

"No," I replied.

"Well, I must have been dreaming,"
he said. "Thought I heard thunder
and saw lightning. Feel as if I had
been taking a Turkish bath with my
clothes on."

"Then he went up stairs to the bath-
room, and I forgot to explain when he
came down."—Indianapolis News.

Selfish, Helpless Women.
The helpless woman is the most
preeminently selfish of all women.
The worst of it is that it is a very
hard selfishness to fight against, as
she is usually sweet-tempered in her
tyranny. In her home life before mar-
riage, she is always the one who gets
up last in the morning and shirks
work all day long.
Today, however, men are beginning
to realize that the self-reliant girl is
not necessarily unfeminine, and that
she makes a better friend or wife
than the girl who is sweet and help-

IF YOU ARE DEAF

If you are deaf, or your hearing is
in any way impaired, no matter what
may have produced the trouble, you
owe it to your-
self to call upon
Dr. N. B. Web-
ber, representing
Geo. B. Way, the
inventor of the
Way Ear Drum,
who is staying
at the New An-
tlers hotel. Mr.
Way, whose
home office is
1338 Majestic
Building, Detroit, Mich., is sending
his ear specialist, Dr. Webber, to Se-
dalia to meet personally those who
are deaf.

Mr. Way, formerly a mechanical
engineer by profession, was deaf him-
self for twenty-five years, and it was
to relieve his own trouble that he
devoted his medical skill, and years
of special study of the ear, to solving
the problem of an artificial aid to
hearing. His theory that the human
ear is only a delicate piece of
mechanism has been proved true, and
it is interesting to see Mr. Way re-
move from his ears the little devices,
without which he is as badly off as
those who daily consult his for de-
fective hearing. The success of the
Way Ear Drum in relieving deafness
is unquestioned. Coupled with the
absolute correct scientific principle
in design, the Way Ear Drums appear
strongly from the fact that they are
invisible, are painless, cannot col-
lapse in the ear, are easily placed
and removed, and, best of all, re-
store hearing. United States and
Canadian patents have been granted
on Mr. Way's valuable invention. All
who are deaf should visit the doctor
while he is in the city.

Dr. Webber is at the New Antlers
hotel until Saturday night next. All
who are deaf should be sure to call
on him. It will cost nothing to learn
whether he can help you or not.

Call at the Antlers and an attend-
ant will show you to Dr. Webber's
parlors.

NO LIVING IN THE PRESENT.

Devotion to Business Precludes All
Nonsense Like That.

The messenger from Mars surveyed
the multitude which had gathered to
meet him with undisguised interest.
Nor did he hesitate to propound such
inquiries as his curiosity prompted.
"Where do you all live?" he asked,
speaking generally. "I live in the fu-
ture," said a young man, good hu-
moredly. "And I in the past," said an
old man. "How odd! And does none
of you live in the present?" "Pardon
me," said the Martian, hastily. "Per-
haps I press my questions too closely."
At this a voice from the outskirts of
the crowd spoke up, saying: "We have
not yet learned how to live in the pre-
sent without interruption of business,
don't you know."—Pack.

FINE CLOTHING

In advertising clothes for fall we will not use exaggerated values or make impossible claims, but we will say that Capp's Fine Clothing is far better than anything offered for the price. You don't find this brand on the bargain counters. There are clothes more expensive and clothes cheaper, but the Capp's brand, of Jacksonville, Ill., is good enough for anybody and priced within the reach of all. We will soon have something to say about Overcoats. We have a large stock of boys' school suits. Bring in your boys.

The Game This Afternoon

Chicago, Oct. 9.—With nerves still tense from the strain of yesterday's battle, baseball enthusiasts gathered early to witness today's struggle for the championship of the world.

Hours before the gates were opened the streets in the vicinity of the grounds were thronged with people. The crowds were so dense that street car traffic at times was almost completely stopped.

The weather is damp and cold, with a strong wind.

It was thought the batteries would be Pfister and Kling, and Siever and Reid.

The general sentiment, which is largely local as a matter of course, today favored Chicago as the winner of the entire series, on the strength of the showing made in yesterday's

game. It was figured that Chicago had shown better batting ability and ran bases in a much livelier fashion.

GOOD TEST FOR NICOTINE.

Experiments That May Be of Interest to Smokers.

"Anyone who wishes to find out how much nicotine he might take into his system by smoking can easily get an idea by a very simple experiment," says an old smoker, who is rarely seen in public or private without a cigar in his mouth. "Puff briskly until the cigar smoke is clear white then draw a big mouthful, double your handkerchief, place it over your lips and blow out the smoke violently as though you were whistling. Look at your handkerchief and you will see a deep brown stain almost as big as a dime on the white linen. That is the nicotine and other oils distilled from the tobacco during burning. Now, of course, I don't mean to say that regular smoker would absorb all this oil into his system. Most of it passes away with the smoke, as shown by the brown deposit on the handkerchief, but still enough remains to affect the nerves, as any inexperienced smoker can testify after his first attempts to become accustomed to the weed. Whether the nicotine hurts anybody who is used to it is a question for the doctors."

EFFECTS OF THE FOG.

Even Blind Men Lose Their Way—The Ground "Sounds Different."

Nothing has such a bewildering effect as fog. Only animals which find their way by scent can get about in it with any certainty, says Chums. Birds are entirely confused by it. Tame pigeons remain all day motionless and half-asleep, huddled up, either in or just outside their houses. Chickens remain motionless for hours during heavy fogs. No bird sings or utters a call, perhaps because it fears to betray its whereabouts to an unseen foe. During one very thick fog a blind man was found wandering about a certain district of London. This man was in the habit of carrying ropes and parcels, and had scarcely ever lost his way before. Asked why he had gone astray, for he was quite blind, and it was supposed that weather would have made no difference, he said that in a fog the ground "sounded quite differently."

Mixtures of Thought in Dreams.
Consider the wild mixtures of thought, displayed both in the waking life and the dreams of mankind. How grand! How mean! How sudden the leap from one to the other! How inscrutable the succession! How defiant of orderly control! It is as if the soul were a thinking ruin; which it verily is. The angel and the demon life appear to be contending in it. The imagination revels in beauty exceeding all the beauty of things, walls in images dire and monstrous, wallows in murderous and base suggestions that shame our inward dignity; so that a great part of the study and a principal art of life is to keep our decency by a wise selection from what we think and a careful suppression of the remainder.—Horace Bushnell.

Crown of Great Britain.

The crown is already of great weight—39 ounces and 5 dwts. To add to it the Cullinan diamond would increase the weight by about three-quarters of a pound avoirdupois, which, it is estimated, is what the jewel would weigh after it is cut. The crown, as it is seen today in the Tower of London, contains 2,818 diamonds, 297 pearls and many other exquisite jewels. Its chief gem is the ruby, the value of which has been estimated at £100,000, which was given to the Black Prince in Spain in the year 1367, and was worn by Henry V. in his helmet at the battle of Agincourt.

Law and Lickings.

In some of the districts of Prussia no father can dust the jacket of his boy without first securing the consent of an official appointed for the purpose. If the boy refuses to mind, the father goes to the officer and says: "My boy Fritz needs a licking. He will not mind me." How old is your Fritz? "He is 12." "Is he very obstinate?" "He is like a mule." "Then here is your permission to go home and take him by the collar and give him 15 good cuts across the back." And the father goes home and cuts a gad and Fritz gets his thrashing and is better behaved for the next three months.

Wanted the Worth of His Money.

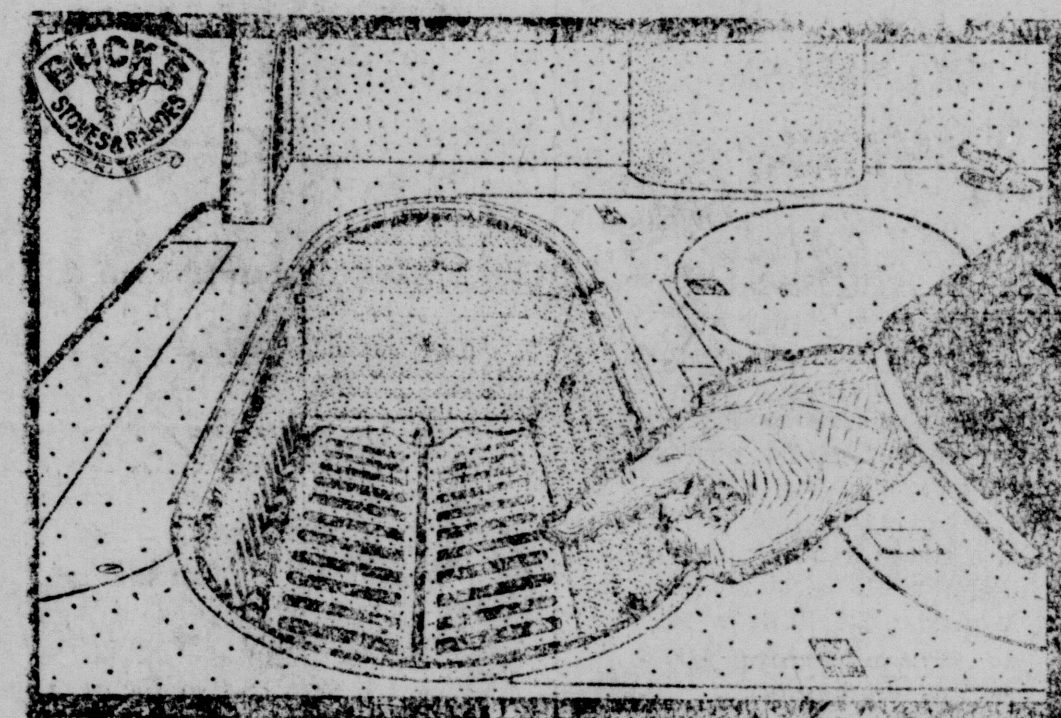

"All we can afford to give you, miss," said the trustee of school district No. 16 to the young woman who had applied for the position of teacher, "is \$45 a month." "At that figure, of course, you wouldn't expect me to teach any fads," she said. "Fads?" echoed the trustee, taken slightly aback. "Why—hm—yes, if you can teach it we'll want that, too." "But if it isn't in the curriculum—" "You may as well understand, miss, that we ain't throwin' any money away. The \$45 a month is to pay for the whole thing—fads, crickalum and everything else that's goin'."—Chicago Tribune.

"SWEETEST MAN" TOWED

A MATRIMONIAL ADVERTISEMENT CERTAIN TO SATISFY GIRLS.

FAIR ONE MUST NOT BE OVER 20

A Mechanic Who Is Earning \$3.50 a Day Is Weary of Going It Alone and Is Ready to Buy a Marriage License.

Morristown, N. J., Oct. 9.—Young women of Morristown are trying to look their prettiest because they have heard that the "sweetest and most loving man" is still without a wife, and is looking for one. At least a man who describes himself that way inserted the following advertisement in a local newspaper:

"WANTED—A wife at once. Any young woman not over 20 years of age can find a loving husband and a happy home right away, with no work to do. Must be willing to marry at once. This gentleman is a mechanic, earning \$3.50 a day. He is 35 years old. He is the sweetest, most loving man. He will worship the right girl. Any young woman who thinks she can fill the position, no matter who she may be, if she is sweet and good, answer this and I will call. Address: Victor P. O. Box 165, Morristown, N. J."

The publication of the advertisement has caused most of Morristown's marriageable young women to flock to the notion stores. Reports are that sales of ribbons, lace and other articles of feminine adornment are selling at a premium.

A crowd keeps constant watch at the postoffice for the owner of the box to come for his mail. The postal authorities decline to say how many answers to the advertisement have been received, but are prepared to call on Washington for additional clerical aid if necessary.

Tin Mines in Malaya.

A correspondent from the Malay peninsula states that the projected railway from Hongkong will be likely to traverse the rich mineral regions of Siamese Malaya. Lang Suan has a tin supply that cannot be exhausted in a hundred years to come, while the same may be said of Renang. There are 70 mines in the region of Lang Suan, most of which are worked by natives, but the European concessions in the latter place, as well as in Renang, are exceptionally encouraging and already are giving excellent returns. There is no lack of capital, even the natives making themselves better acquainted with modern machinery and bringing it into use.

Giving Herself Away.

"Gracious, Katherine, why are you blushing?" "I—I never was so embarrassed in all my life. That handsome young man kissed me in the dark hallway and then said: 'I beg your pardon, I thought it was your sister.'" "And what did you do, my dear?" "Why—why, I was so flustered I thought I was being 'introduced to some one and said: 'The pleasure is all mine!'"

Annoying.

"I suppose your family had a good time in Europe." "Well," answered Mr. Cumrox, "I don't think mother and the girls enjoyed themselves all the time. You see, they had so much trouble figuring foreign money back into dollars that every now and then they were embarrassed by finding they had accidentally ordered something that wasn't expensive."

The Result of Habit.

"Just think what professional habit will do for a man!"

"In what way?"

"I know a fellow who used to belong to a minstrel troupe, and he says daily custom so hardened his sense of shame, that he never heard mention of the family skeleton in the closet without wanting to rattle his bones."

A Merry War.

The merry war goes on all over the country in regard to the salaries of teachers. The Pennsylvania legislature has passed a law in regard to the salaries, making the minimum \$40 a month. When teachers hold a professional or permanent certificate the minimum is to be \$50, this to come after two years' teaching.

MOST TERRIBLE OF DEATHS.

Spider's Bite Probably the Worst Known to Scientists.

What is the most terrible death in the world? The following are a few of the most terrible known to mortal man, but as to which of those given is the worst it would probably be hard to say.

One of the most agonizing deaths known is caused by a small black spider half the size of a pea. It lives in Peru and South Australia, but a few specimens have reached Europe and America in ship loads of lumber. Not long ago a dock laborer while unloading a vessel in the Victoria docks felt one upon his hand. This death-dealer dug its fangs deep into the man's flesh, and as soon as the poison began to work he fainted with pain. He was dead in three days. This Spider's venom scorches up the blood vessels and spreads through all the tissues, causing the most fearful agony a human being can have to bear. The worst of it is that the victim lives at least two days. The spider is generally known as the "specky." When a man who knows what the bite means becomes the victim he generally blows out his brains.

Another fearful death is caused by eating a grain called "bhat." This sometimes gets mixed with rice, which it resembles. The plant grows in the far east, and a few grains of it will drive a person into a state of violent mania. The victim becomes drowsy at first and afterwards hilarious; then he goes raving mad, tears himself to pieces with his fingers and bites mouthfuls out of his flesh. This grain is found only in the remotest parts of the east, but both white men and natives are killed by it occasionally, for the plant grows in with the rice crops, and there is no way of telling them apart, except when the grain is dried it comes out in a sort of brick-red color.

There is a South American plant, or vine, called the "knotter," which fastens about any living thing that comes within reach, twining its long tentacles about a man as a devilish night. These tentacles sear and burn into the flesh like white-hot wires, and the victim is dragged into the heart of the foliage, and his life slowly drained as the spider sucks the blood of the fly. Those who have strong instincts of cruelty, sometimes force a dog or other animal into the grip of the "knotter" to watch the effects, which are too horrible to describe in detail.

Child Misunderstood.

When Lord Elphinstone was in America a couple of years ago he was entertained at dinner by a family the head of which was to accompany his lordship on his hunting trip through the wilds of the northwest. A child of about five years, named Ethel, during the dinner was big-eyed and big-eared with wonderment—in fact, completely overawed by the presence of the distinguished foreigner. Ethel heard her mother and father now and then say, "My lord this, and my lord that," or "Will you have some of this, my lord, or some of that?" the dinner being a purely informal one. Finally, when the mother was interested in the conversation of another guest, Ethel noticed that mildred was gazing interestedly at a dish of relish quite out of his reach. The child thought she saw a chance to please Lord Elphinstone, and in a firm, clear voice, exclaimed: "Mamma, God wants some pickles."—San Francisco Argonaut.

New York's Highest Building.

"How high is it?" This question at once directs thought to the Singer building, in lower Broadway. The question is asked by thousands of persons crossing from the Jersey shore. It was asked the other day of a tall, scholarly-looking man standing on the upper deck of one of the Pennsylvania ferryboats. "I do not know its exact height," said the man addressed, "but this I give as an opinion, that during a heavy thunder shower the height of that building would make it entirely possible for the sun to shine on the roof while the lower stories are being deluged by rain. The heavily laden rain clouds are only about 500 feet above the earth, while the lantern of the new Singer building will be almost 600 feet high. The building will tower high above the fog banks, I venture to say, thus affording New Yorkers one of the features of Switzerland right at their own doors."—N. Y. Tribune.

How Bears Play.

In a recently published work a naturalist gives some interesting facts concerning the playtime of animals. The bear is supposed by many to be a rather solemn animal, but he is given to pranks at times, and even indulges in antics that closely resemble games played by children. The naturalist observed three cubs repeatedly playing a game very much like tag. A cub would chase the others, until he culled one with his paw; then the one hit took up the chase. It may be that the writer's imagination put more system into the play than actually was there. However, bears in zoological gardens have been known to turn somersaults, and they take to dancing so readily that it is easy to train them to take certain steps.

She Wasn't.

"Young De Style always had such an eye for beauty that I suppose his fiancée is something unusual. Is she very handsome?"

"No, but her allowance is."—Pittsburg Press.

County Court to State Fair.

Judges H. J. Priest, S. North and J. H. Holloway, who compose the county court of Ralls county, were in the city yesterday morning, says Tuesday's Hannibal Journal, en route to Sedalia, where they will attend the state fair, now in progress in that city.

The only true constipation cure must begin its soothing, healing action when it enters the month. Hollister's Rocky Mountain Tea restores the whole system to a healthy, normal condition. 35 cents, tea or tablets.—W. E. Bard Drug Co.

Show Them

Show the visitors the great Arlington fountain at 508 Ohio street. It weighs 6,000 pounds and cost \$3,000. Over 200 delicious, dainty drinks and dishes served.

Ticket Sales Were Good.

The amount of sales from tickets to and from the fair grounds of the Katy yesterday was much larger than the sales from Tuesday of last year. The crowds brought here by the Katy trains today were enormous. Over 400 tickets to Sedalia were sold at Booneville, over 300 at Windsor, while Clinton purchased 150.

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has conserved people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label. If poisons are in your Cough Mixture." Good! Very good! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

A ROBBERY AT HOUSTONIA

Alleged Pickpocket Taken From Lexington Branch Train.

Angie Arata, alias "String Kid," an American Italian and professional pickpocket, was arrested by James Card and Detective McCue, of the Missouri Pacific, at the Missouri Pacific station this morning.

The officers received a telegram from Houstonia that a theft had been committed, and on the arrival of the Lexington branch train the man was jerked from the train and locked in jail.

On being caught by the detectives Arata remarked: "If there were no pickpockets you officers wouldn't have any job."

SERPENT IN NEVADA LAKE.

Two Men Affirm That They Have Seen the Reptile.

A report from Walker lake states that a monster sea serpent has been seen at northern end of the lake. Dan Cornelison, a mining man of good reputation for veracity, brought the story to Goldfield. Cornelison says that both he and a companion named John McCorry sighted the reptile while fishing from a boat half a mile from the northern shore of the lake. The monster was then making its way toward the east shore of the lake. Cornelison says that at first sight he took the serpent for a man in a skirt, and when it disappeared for a moment he thought the boat had capsized, and rowed toward the spot, when it suddenly reappeared, giving them a good view of its proportions, which they estimated to be about 30 feet in length and 6 feet across the back. Another resident of that vicinity, a man named Peters, is said to have discovered the serpent sometime ago reposing in shallow water near the shore, and on being aroused it disappeared in deeper water. There is also said to be a legend among the Putes around Shurz concerning the existence of a serpent in Walker lake.—Sacramento Bee.

MACHINE WAS ALL RIGHT.

Figured So Well Merchant Decided That He Needed Two.

"Sir," said the man as he entered the office, "I wish to exhibit to you my universal calculating machine—a thing that should be found in the counting room of every business man. It will add, subtract, divide, multiply, and there is no such thing as failure."

"I have heard of it," replied the merchant, "but I never understood it was much of a success." "O, sir, but it is perfection! Give me any example you will, and I will guarantee a correct solution." "Very well, I bought two dozen leghorn chickens at \$3 each. I built a coop at an expense of \$30. In one year I bought \$25 worth of feed. In the same year I lost six eggs. What was my profit or loss for the year?" "Why, you paid out \$127 and got back about 20 cents. In actual figures, your loss was \$126.80." "I guess that's correct," sighed the merchant, "and you may leave me two machines. I'll keep one busy on my chickens and the other figuring out how much profit I make in raising my own celery and cucumbers."

Rained Sandwiches.

When hundreds of ham and chicken sandwiches fell at Eaglesmere, Pa., during a thunderstorm the other day folks wondered what miracle was being performed which should cause food to drop from the heavens. For 20 minutes the sandwiches fell, with now and then a chunk of chocolate cake to vary the monotony. Some olives and a few pickles came along, and now and then a pie. It was explained a few hours later, when a church picnic party came along and told how a tornado had ripped up things at the grounds. The tables had been set and the dinner bell was about to be sounded when a rip-snorting wind came down through the woods and carried off every bit of food. Strangely enough several layers of cake were left behind, and the women who baked them were humiliated. They said that some unkind persons might think they were too heavy.

Eloping Heiress Still Missing.

New York, Oct. 9.—The mystery which surrounds the disappearance of Miss M. Helen Maloney, who is said to be one of the wealthiest heiresses in the world, is increased by the news from London today indicating that neither she nor Mr. Samuel Clarkson, with whom she is thought to have eloped, are on board the steamer Majestic from New York.

Circuit Court Entries.

The following entries were made on the docket in the Pettis county circuit court today:

Hiram P. Robbins et al vs. Sedalia National bank et al, unlawful detainer; dismissed by plaintiff at plaintiff's cost.

Joseph C. Smith et al vs. William H. Smith et al, partition; judgment not rendered.

Unsolicited Comment of This Sale By the Democrat-Sentinel

The Flower-Barnett Dry Goods Co. has just inaugurated its third annual harvest sale. This is an event that holds a conspicuous place in merchandising circles in Missouri, not excepting any of the metropolitan stores.

and the many special offerings made for the occasion even surpass those in the great shopping centers of St. Louis and Kansas City. This progressive firm begins immediately after these sales end to prepare for the next event a year hence and every purchase is made with the sole aim of getting the best quality for the least money, so they can provide for the economic buyers. The present sale offers some very exceptional values, and the sales coming as they do, right in the beginning of a new season, makes them timely and manifests forcibly the interests the Flower-Barnett store has in providing for its patrons.

WHAT THE BOOKS SHOW

Auditor of the Standard Oil Company Unable to Explain.

New York, Oct. 3.—Transcripts of the ledgers and journals of the old Standard Oil trust and several of its subsidiary companies were placed in evidence today in the government hearing against the trust.

Clarence G. Fay, assistant auditor of the Standard Oil company of New Jersey, was again on the stand. Attorney Kellogg called his attention to the balance sheets of the Standard Oil company of Kansas for 1899, on which stocks of the Southern Oil tank line, the Mutual Oil company, the White Golden Lubricating company, C. P. Wagner & Co., P. Garlick & Co., and the Protection Oil company appeared as assets, and Fay said he could not explain why the balance sheets in the following years did not show what had become of all these assets and why they were written off the books.

A Row of Seats Fell.

A row of seats at the moving picture show of the Red Men's carnival on West Second street fell at about 9:30 o'clock last night, precipitating about 100 people to the ground. No one was injured worthy of mention.

Often The Kidneys Are Weakened by Over-Work

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle free.

by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

FOR THE SEVENTH TIME

Archias Seed Store Awarded First on Seeds and Poultry Supplies Today.

Is it a wonder that the Archias seed store is so progressive?

Announcement was made today at the state fair that it had again been awarded first premium on its exhibit of seeds, poultry supplies and incubators and brooders, making the seventh consecutive time this firm has carried off first prizes at this fair.

Today's victory also gives the store a record which probably has no parallel in this or any other county, inasmuch as it has won first premiums every year since the Missouri fair was instituted.

It would seem that victory upon victory would tend toward monotony, but not so in this instance. It has accentuated interest, but the competition has failed to keep pace with the advancement of the Archias seed store, which each year, on account of its enterprise, has a better exhibit than the previous year and shows a product always a little better, which accounts for the many and continued successes.

The seed exhibit was judged for the largest and best display of garden and farm seeds, the samples of which to consist of not less than one quart of grain and one pint of seed. The poultry supplies and incubators and brooders were judged as the best, thus placing the Archias seed store in a class by itself as far as Missouri is concerned.

Secretary W. E. Hurlbut, of the local Poultry association, is in receipt of a letter from Mr. T. E. Quisenberry, secretary of the Missouri State Poultry association, from which the following extract is taken:

"We have just landed the American Poultry association show, to be held in connection with our own. This will give us many special prizes and institute speakers that we could not have gotten otherwise. It comprises the states of Texas, Kansas, Oklahoma, Arkansas, Indian territory (now Oklahoma), and Missouri, comprising the southwest branch of the A. P. A., and Sedalia got almost a unanimous vote. This is great and our show will certainly be a hummer. We want a good building down town by all means, if it is possible to get it."

THIRD DAY OF THE FAIR

SEDALIA DAY ATTRACTED THE LARGEST CROWD OF ANY PREVIOUS TUESDAY.

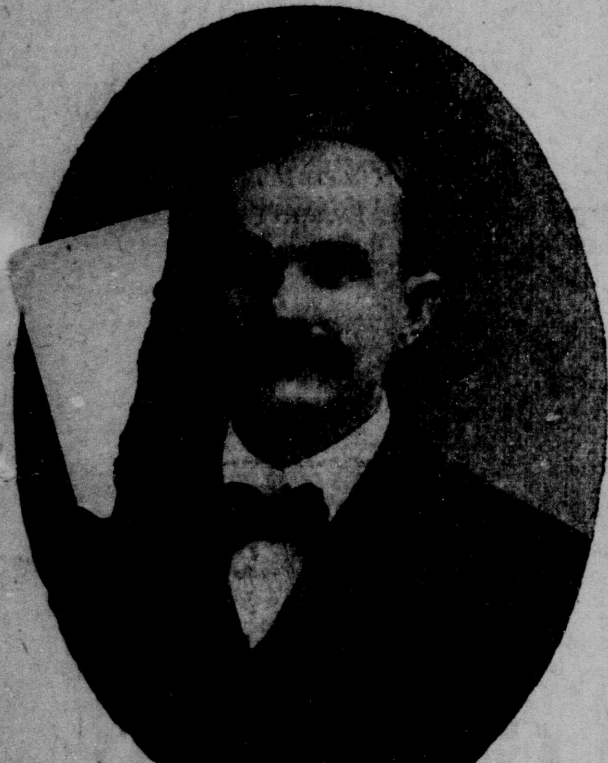

WAS IDEAL OCTOBER DAY, TRULY

The Airship Was One of the Pleasing Features—Automobile Race Another Big Card—The Harness Race Results.

"Sedalia day" at the state fair yesterday proved the biggest success from every standpoint of any Tuesday ever known in the seven years' history of the institution, and a conservative estimate of the number of visitors to the grounds puts it at 12,000.

Ideal is the one best word that describes the weather conditions, and the big features were the automobile race of ten miles for a purse of \$1,000, two ascensions of Strobel's airship and the harness and running races.

"Dick" Dallas was the aeronaut operating the airship in its flights, one being made in the forenoon, and the other shortly after the racing program had been started. The first flight was made without incident, the aeronaut proving himself capable of guiding and controlling the machine with apparent ease. Spectators looked in astonishment at the airship while it was making its course high in the air.

and were more than pleased with the exhibition.

In returning from a sail through the air over the city and the downtown district to the fair grounds, on the second trip, the operator of the airship hovered too low in nearing the race course and the rudder struck against the frame work where the aerial trapeze acts take place, causing the nose of the gas bag, which had been blowing gas, to drop against the propeller, tearing a large hole in it, and doing great damage. Mr. Dallas was only a few feet in the air when the airship fell to the track, and luckily escaped injury.

An effort will be made to have everything in readiness for a flight late this afternoon, but in the event the airship cannot be placed in proper shape in time for it, it will be ready

for giving exhibitions of aerial navigation Thursday and Friday.

In the automobile race there were six starters, the makes of machines, with their owners, being: C. F. Mensing, Kansas City, (Stoddard-Dayton); W. N. Mitchell, Chicago, (Ford); Harry Rubey, Macon, Mo., (Stevens-Duryea); F. C. Cheatham, Warrensburg, (Thomas); Emil Dorn, Kansas City, (Buick); Dr. W. S. Shirk, Sedalia, (Mitchell).

Two machines were started together, the time being taken and those finishing first, second, third and fourth received a division of the purse. C. F. Mensing won the race, making the ten miles in 12:36; H. N. Mitchell, Chicago, second, time 12:47; Harry Rubey, third, time 14:01; F. C. Cheatham, fourth, time 14:12 1/2. Dr. Shirk distanced, Mr. Dorn failed to finish the race owing to his machine being disabled in making the eighth mile around the course.

The harness events were considered equal in every way to any ever pulled off on the fair grounds track, the results being as follows:

State Fair Notes.

J. G. Callison, of Winsor, will exhibit Walnut Boy, with a record of 2:11 1/4, and thirty-five of his get on Thursday.

Judging from the crowd at the fair grounds yesterday, the attendance on Thursday, if the weather conditions are favorable, will be by far the largest ever known since the fair was started seven years ago.

Hiner's Third regiment band, of Kansas City, furnished the music in the grand stand yesterday afternoon, and received a big ovation. E. M. Hiner rendered beautifully two cornet solos, being accorded tremendous applause.

The different churches serving meals on the fair grounds, and also everybody having stands or places where food could be procured, did a thriving business yesterday, several

of them selling out everything they had during the noon hour.

Several new amusement features were introduced in the vaudeville stunts on the platform opposite grand stand at the fair grounds yesterday, and are being presented again today, which adds much to entertainment of the large crowd between the heats of the racing gram.

Transportation facilities to and from the fair grounds yesterday proved inadequate to handle large crowds, especially at the corner of the racing program, when everybody made a mad rush for either shuttle trains or the street cars, a large number of them being unable to find a suitable place to either themselves or to stand up and walk the entire distance into city.

CARRIED IT IN HIS WOUNDED
HAND TO A DOCTOR, WHO
SEWED IT ON.

AND NOW IT IS AS GOOD AS EVER

The Experience of Ben Jason, a Stal-
wart Young Trackman in a
Clay Factory at Edwards-
ville, Illinois.

Edwardsville, Ill., Oct. 9.—One of
the rarest and most delicate opera-
tions known to surgery, grafting a
completely severed member back to
the human body, has been success-
fully performed in Edwardsville.

The right thumb of Ben Jason,
after being mashed off, was sewn on
and is alive.

The thumb was crushed off midway
between the first and second joints.
It was mashed and the bone was
splintered. He picked up the severed
fragments of the thumb, carrying it
in the wounded hand. The clay
works are half a mile from the office
of Dr. R. S. Barnsback. On the way
Jason became somewhat faint and
stopped for a brace. The bartender
derided him for carrying the thumb.

"I'm going to wait till I see the
doctor," Jason said obstinately. "If
he says throw it away, I will."

Dr. Barnsback congratulated the
truckman on saving the thumb. He
carefully washed and dressed both
the mangled stump and the fragment.
The ragged edges of both were trim-
med off, and where the bone had
been splintered it was taken out. Ja-
son did not ask for an anaesthetic
while this was being done, but aided
the physician.

To be successful the tissues of the
injured thumb had to be put just as
before except for that part which
had been lost in the accident. This
done, the thumb was sewn into place
with the utmost care and wrapped
with surgical dressings. This was
made unusually heavy in order that
no cold might penetrate. Then Jason
was taken home and told he must
hold the thumb in an oven for two
days at least.

For three days and two nights Ja-
son sat beside the kitchen stove and
held his right hand in an oven,
catching what snatches of sleep he
could. The hand was kept hot to en-
courage circulation from the arm
through the thumb. Now the thumb
is entirely healed, but is rather stiff,
and Jason will have the full use of
This, it is said, will wear off soon
both joints.

Dog's Ashes Preserved in an Urn.
A Philadelphia young woman, the
former mistress of an intelligent lit-
tle fox terrier, who, until he died, was
the pet of an entire neighborhood, has
hit upon a most unusual method of
keeping fresh the memory of her little
pet. When the dog was taken sick
his mistress summoned at once a vet-
erinarian, who did everything possible
to save the animal, but all to no pur-
pose. When it finally died the young
woman was disconsolate and eagerly
seized upon a suggestion made half in
jest by a friend that she have the re-
mains cremated. The doctor was de-
legated to secure the services of assis-
tants, and the ashes, after the cere-
mony, were incased in a handsome
bronze vase, which now rests on a
table in the drawing room of the
woman. Beside the urn stands the
picture of the little dog, taken when
he was standing at attention at the
command of his mistress.

An Explanation.

A Buffalo man recently consulted a
youthful physician in that city, and
when the diagnosis had been made
and the prescription written out, he
asked what fee was expected.

"Three dollars," said the young
medico.

Whereupon the caller produced a
ten-dollar gold piece, which he proffered
the doctor in payment of his fee.

The physician looked annoyed.
"Haven't you anything smaller?" he
asked plaintively.

"Nothing smaller, except a two-dol-
lar bill," said the patient.

"Then give me that," said the doc-
tor. "If I take the ten-dollar gold
piece I shall be out seven dollars. I
have promised my wife that all gold
shall be hers that I take in the way
of fees."

Don't Beat Bad Ones.
"No, Willie. Strange as it may
seem to you, egg-beaters are never
used to whip bad eggs."—Judge.

IDA WILL NOW TESTIFY

THE CONFIDANTE OF HARRY K.
THAW HAS RETURNED
FROM EUROPE.

A WITNESS FOR THE PROSECUTION

She Was Missing at the First Trial,
and Rumor Had It That the
Money of Thaw Had Sent
Her Across Atlantic.

Pittsburg, Pa., Oct. 9.—Miss Ida
Veronica Simonton, of this city, the
"missing witness" in the Thaw case,
has arrived here and is ready to get
on the stand at the next trial of
Stanford White's slayer.

Miss Simonton is the woman who
was close to both Harry Thaw and
his wife, and who disappeared sud-
denly before the last trial.

It has been asserted that Thaw
money sent Miss Simonton abroad
at that time to keep her out of the
way. At the time of the trial it was
given out that she was greatly inter-
ested in monkeys and had gone to
Africa to study the language of the
simians. However, it is said that she
never went further than Paris.

Miss Simonton will be a Jerome
witness at the next trial. Her story
will be interesting. District Attorney
Jerome relies on her to strengthen
the state's case.

Miss Simonton was intrusted with
the affidavit said to have been made
by Evelyn Nesbit Thaw regarding her
treatment by Stanford White.

Miss Simonton was the confidante
and friend of Mrs. Holman, mother
of Mrs. Thaw. It was she who was
employed by Thaw to bring Mrs. Hol-
man back from Europe after the
memorable trip abroad, previous to
the marriage of the chorus girl.

Miss Simonton refuses to discuss
her testimony in the coming trial, or
any phase of it.

Detective Roger O'Mara reiterated
that the defense did not want Miss
Simonton's testimony, and that Jer-
ome was welcome to anything she
may have to tell.

An Idea.

"An idea," said a fat man, "for the
makers of underwear or socks, draw-
ers and undershirts. Why do they put
the thickest seams and knots and
roughnesses inside, next the sensitive
skin, instead of outside, where they
would not be felt?"

"Have you not often had your un-
derwear prick you, the knots bruise
you, the seams set up an itching?
Well, all that could be abolished. The
inside of underwear should be turned
outside."

"Looks like the only possible objec-
tion to my idea. But, after all, in un-
derwear, which is invisible, comfort
means more than looks."

Time to Wake Up.

A friend of mine has a little girl four
years old, who has acquired the habit
of calling her mother and father by
their first names instead of "mamma"
or "papa." The child sleeps in a crib
besides her parents and is wide awake
every morning when her mother wakes
the father telling him it's time to go
to business, the six o'clock whistle has
blown, says writer in an eastern mag-
azine. One morning the child heard
the whistle but the mother did not, and
after waiting a short time baby put
her hand through the bars of her crib
and pulling the father's arm cried:
"Get up, Jack, the whistle blowed."

Electric Anesthesia.

Electric sleep, or anesthesia, pro-
duced by the action on the brain of
intermittent electric currents of low
voltage, has been a subject of special
study for several years by Prof.
Stephanie Leduc of Nantes and others.
The application has been perfected
until it is practicable to put dogs and
rabbits quickly into a calm and regu-
lar sleep, with general and complete
anesthesia.—Electricity.

Extra Service at Walch Bros.

Attention of fair visitors and Se-
daliens as well is called to the very
excellent service at Walch Bros.' cafe,
109 and 111 West Second street, this
week. A large corps of experienced
waiters and cooks, nearly twenty in
all, are employed and the result was
apparent today when hundreds of
people were served with the greatest
precision and promptness with fine
dinners and lunches.

Walch Bros. never do anything by
halves, and anticipating the neces-
sities for this week they have amply
provided for everybody with every-
thing that is good to eat. A very im-
portant feature of this extra service is
the moderate prices asked. Meals and
short orders are served at all hours
of the day and night. Especial at-
tention is called to the service of fish
of all kinds and other delicious eat-
ables.

HE CUT INTO HIGH LIFE

THEN "BOBBIE" O'NEILL, A GRADUATE OF COLLEGE, GOT INTO TROUBLE.

EOW! WHAT A BEAUTIFUL "BUN"

The "Jag" Taken on Led Him into the Bedrooms of the Fair Sex, and He Finally Landed Behind the Iron Bars.

Indianapolis, Ind., Oct. 9.—Charged with public indecency, entering houses to commit a felony and suspected of burglary, "Bobbie" O'Neill, college graduate and "red-hot" sport, landed in jail, after a night of strenuous incidents. Like a real Raffles, he participated in a number of exciting events, flitting from one to another and easily escaping from all but one, when the police stepped in and stopped his career.

In the "sweatbox" last night O'Neill was asked if he had not visited the Bertha Ballard home, on North Delaware street; if he had not attempted to choke Olive Goins, a nurse at the Runnells sanitarium, at 522 North Illinois street; if he had not attempted to rifle the house of L. F. Totten, 339 North Illinois street; if he had not tried to assault a servant girl at 1710 North Delaware street, and if he had not made an effort to enter the house of John Millnor, at 1709 North Delaware street. At least four persons say they recognized O'Neill when he was making those rounds.

It is said that he was frightened away from Totten's house when one of the men there started to fire on him. O'Neill mounted his bike and rode away. He is said to have been reaching for Miss Goins' throat when she screamed.

At the Ballard home O'Neill is said to have been seen by two young women whose bedroom he invaded. They turned on the lights and he fled. The servant girl on North Delaware street managed to evade him, and he was lucky to escape the shots Millnor fired at his fleeing form. A few minutes afterward he was arrested.

He says now that he was merely out on a "beautiful bun," in other words, he was drunk.

O'Neill's father lives on North Capital avenue. The young man has held a good position at Beech Grove, a new town the Big Four is founding near here. It is said that he has been drinking heavily, and that recently he was barred from some of the cafes because of his manner of "cutting into" high life.

GEORGE WASHINGTON'S QUEUE.

It Hid a Luxuriant Suit of Straight and Very Dark Hair.

The Father of His Country concealed a luxuriant suit of hair beneath his queue wig. Many now wish the old fashion were in vogue, to conceal thinned hair or baldness. Yet no one need have thin hair or be bald, if he cure the dandruff that causes both. Dandruff can not be cured by scouring the scalp, because it is a germ disease, and the germ has to be killed. Newbro's Herpicide kills the dandruff germ—no other hair preparation will. Destroy the cause, you remove the effect. There's no cure for dandruff but to kill the germ. Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. Two sizes, 50c and \$1. W. E. Bard Drug Co., special agents.

COMES INTO A FORTUNE

THOMAS YEAKLE, WHO WAS
ONLY A DISHWASHER AT IN-
DIANAPOLIS, IND.

BUT NOW HE WILL BE WELL FIXED

Because an Attorney Hunting Him in
Cincinnati Happened Across an
Old Hoosier Capital
Directory.

Indianapolis, Ind., Oct. 9.—Thomas Yeakle, 38 years old, who has been employed as a dishwasher at different hotels of Indianapolis, sees a fortune of something like \$30,000 in sight, and left for Chicago to try to obtain it.

Edward A. Warfield, a Chicago business man and administrator of the estate of George T. Cline, who died in Chicago some months ago, leaving an estate valued at \$200,000, located Yeakle in Indianapolis after a search of many of the large cities of the middle west. Yeakle is a nephew of the late Millionaire Cline. Seven years ago Yeakle disappeared from his home in Maryland and never returned.

"Cline left a will giving his estate

to four heirs," said Warfield. "One of these heirs was his sister, the mother of Thomas Yeakle. A codicil of the will declared that at the death of any of the legatees their property should go equally to their direct heirs. Yeakle's mother is dead and he is a direct heir."

The Cline estate is now in litigation in Chicago and has become one of the famous cases in the probate courts there. It is said that some of the litigants would like to have Yeakle declared legally dead, as he has been cut off from his family for seven years.

Yeakle is unmarried. He showed no particular astonishment when told that he had a chance of becoming rich. He knew that he belonged to a wealthy family, and hoped some day to get a share of the wealth.

"I have hunted for this fellow all over the country," said Warfield. "In Cincinnati I found an old Indianapolis directory which gave his name and occupation. I came on to Indianapolis and located my man with little difficulty."

Thomas A. Edison, the great American inventor, says: "Fully 80 per cent of the illness of mankind comes from eating improper food or too much food; people are inclined to over-indulge themselves." This is where indigestion finds its beginning in nearly every case. The stomach can do just so much work and no more, and when you overload it, or when you eat the wrong kind of food, the digestive organs cannot possibly do the work demanded of them. It is at such times that the stomach needs help; it demands help, and warns you by headaches, belching, sour stomach, nausea and indigestion. You should attend to this at once by taking something that will actually do the work for the stomach. Kodol will do this. It is a combination of natural digestants and vegetable acids and contains the same juices found in a healthy stomach. It is pleasant to take. It digests what you eat. Sold by Arlington pharmacy.

Two Pickpockets Arrested.

Two professional pickpockets parading under the names of Albert Davis and Fred Owens, were raked in by Detectives O'Hare and Schenk at the state fair grounds yesterday and brought to town and placed aboard train No. 5 on the Missouri Pacific and sent out of town and given orders not to return. The men were "swell" dressers and their arrest doubtless prevented a number of thefts and robberies that would have occurred had they been given a clear path.

Home From the Territory.

PISO'S

Conquer That Cough

Don't go around with a mortgage on your chest. Every day that you let it remain, the tighter its grip becomes. The cough becomes more violent and exhausting. The delicate bronchial passages get inflamed under the continual hacking; the lungs become lacerated under the constantly recurring paroxysms.

With PISO'S Cure

there is a soothing and healing effect upon the entire respiratory mucous membrane. It has stood the test for nearly half a century as the one reliable remedy for consumption, colds and all chest affections. It comes right to the origin of the trouble, removes the cause and aids nature in restoring healthful conditions. PISO'S Cure is absolutely free from objectionable ingredients. Its perfect safety, pleasant taste and unequalled efficacy make it the ideal remedy for man, woman and child. If you have a cough drive it out today

A LAPFUL OF DIAMONDS

AND CASH WERE CARRIED AWAY BY THE WIFE OF A FAMOUS ATTORNEY.

"BREACH" IS STYLED IRREVOCABLE

A Young Woman Clerk in the Lawyer's Office Might Be Able to Give Information, but Mum Is the Word With Her.

New York, Oct. 9.—Clifford W. Hartridge, former counsel for Harry Thaw, frankly admitted that his wife had written that she believed the breach between them irrevocable, and that upon her disappearance she had carried with her diamonds and money sufficient to maintain herself for many years.

Mr. Hartridge asked the police department to aid him in finding his wife, who suddenly disappeared while on a shopping tour. The next morning her mother, Mrs. Leslie Russell, with whom Mr. Hartridge is living, received a letter from Mrs. Hartridge, stating that she was worried regarding her health, and that she had decided that it would be best for her not to return home.

Mr. Hartridge is seriously ill, and the mental strain that has come upon him as a consequence of his wife's disappearance makes his friends anxious regarding his condition.

Mr. Hartridge admits that the reasons given by his wife for her disappearance have nothing to do with the fact that during his recent illness he and his father made their home at the residence of Miss Rachel Riordan, a clerk in the office of Peabody & Hartridge.

Until Mr. Hartridge made the statement that his wife's illness was the only reason for her absence, Miss Riordan refused to discuss the case in any way.

"Mr. Hartridge has always been a good friend of mine," she said, "and until he states the reason for his wife's absence I will not say one word."

Miss Riordan was a protegee of Mrs. Jefferson Davis, and when her father died it was Mrs. Davis who secured her a position in New York. Her

brother and his wife are close friends of Mr. Hartridge, and Miss Riordan's loyalty to her employer sealed her lips regarding his domestic affairs until he spoke definitely regarding the case.

BOY WEIGHS 752 POUNDS

HUMAN MONSTER ON EXHIBITION AT THE STATE FAIR.

HE IS ONLY TWENTY YEARS OLD

Is Transported as Baggage and Strong Dray Wagons Are Used to Take Him to the Train.

Regarding "Baby Jim," the most novel exhibition at the fair, a Dubuque, Iowa, paper had the following:

On Monday morning, a man passed through Dubuque who weighed 752 pounds. The fellow was on his way to the fair at Des Moines, and attracted the attention of everybody around the C. & W. depot, and during the short time he was in the city he created as much interested attention as any side show.

With the giant were four negroes. Of such terrific size was the big fellow that the station hands, together with the assistance of the stout one's associates, had to load him onto a truck to get him across the platform. One who witnessed the process declares that the truck was hardly wide enough for the monster, and he loomed over on either side.

Had to Use Wagon.

To convey him to the Milwaukee depot, it was necessary to resort to a large baggage wagon which was at the station, and across the top of which a couple of planks were placed. The man's suspenders were wide leather straps, of the sort used to secure trunks.

The human avalanche seemed to be a good-natured sort of individual, and laughed heartily with his friends while they were helping him over to the wagon. He can hardly wobble the exertion of coming down the car aisles having done him up so that walking any further after he had left the train was out of the question.

The big fellow has an enormous appetite, and once he has been stationed at his place at a fair he moves but little.

A representative of the Democrat-Sentinel viewed "Baby Jim" yesterday, and to look at him as he sits in his booth one would guess his weight 1,000 pounds, and his dimensions to the naked eye would be put beyond the actual measurements. "Baby Jim" is well worth the price of admission to see, for it is seldom that such a giant is brought to Sedalia.
